

Milwaukee Chapter AGO, All Saints Cathedral & Summerfield United Methodist Church
Pedals, Pipes & Pizza
Saturday, October 31, 2015 – 10:30 AM-2:30 PM

Students and their chaperones have the opportunity to see the pipes and electronics up close and to observe directly how an organ is put together. There are inherent risks in exploring the pipe organ chambers. This area is uneven and will involve ramps, ladders and steps. Students and chaperones must be aware that the pipes and other components are very fragile and sensitive. The Milwaukee Chapter AGO, All Saints Cathedral & Summerfield United Methodist Church along with program presenters will use the utmost care in guiding guests through the organ chamber tours. Students and chaperones will be expected to use utmost care when touring the chambers.

Photographs and videos may be taken during the event for general publicity use by the Milwaukee Chapter of the American Guild of Organists. Student names will not be included with any media used.

I have read and am aware of the risk of participating in the organ chamber tours for the Pedals, Pipes & Pizza Program on Saturday, October 31, 2015. I am also aware that pictures and video may be taken at the event and may be used as general publicity for the Milwaukee Chapter AGO.
